

**SYSTEM, METHOD AND SOFTWARE APPLICATION FOR
ACCESSING AND PROCESSING INFORMATION**

ABSTRACT OF THE DISCLOSURE

The present invention relates generally to systems, methods and software applications for storing, retrieving, and displaying information. More particularly, the present invention relates to providing a comprehensive, interactive tool for storing, retrieving, and displaying agent identifying information and agent commission information. The method of the present invention comprises the steps of: receiving agent identifying information and agent commission information; analyzing and sorting the received agent identifying information and agent commission information; saving the agent identifying information and the agent commission information; providing an interactive display of the agent identifying information and the agent commission information; providing interactive access to a display of detailed agent identifying information; and providing interactive access to a display of detailed agent commission information.
